

Excalibur Countach

This watch is specifically developed for the launch of the Lamborghini Countach, the super car paying tribute to an icon of hyper cars.

Special features:

- RD112 calibre fully developed and manufactured in-house
- 90° double flying tourbillon
- differential gear train to average the timing of both tourbillons
- Mineral Composite Fiber case body
- ergonomics focused strap
- certified by the Poinçon de Genève

Boutique exclusive

Limited edition of 8 pieces

Description

- Lamborghini, the super car manufacturer from Italy, and Roger Dubuis, the hyper watch manufacturer from Geneva, teamed up and unleashed their creativity to release audacious timepieces born to race. The result are watches with unique calibres built like engines. From this collaboration, several patents and World Premiere were registered by Roger Dubuis offering to its exclusive tribes models evoking the uncompromised machines made by the Italian brand of the bull. The collaboration is also the genesis of unique projects where the client sits with the manufacturer to create his or her very own watch.

Calibre

- Name: RD112
- Energy: Mechanical, manual-winding
- Functions: Hour, minute
- Components: 295
- Jewels: 40
