- Carbon case with black DLC titanium bezel
- Interchangeable strap with QRS - Quick Release System
- Rubber and Alcantara® strap

Limited edition of 88 pieces

## Description

- Lamborghini, the super car manufacturer from Italy, and Roger Dubuis, the hyper watch manufacturer from Geneva, teamed up and unleashed their creativity to release audacious timepieces born to race. The result are watches with unique calibres built like engines. From this collaboration, several patents and World Premiere were registered by Roger Dubuis offering to its exclusive tribes models evoking the uncompromised machines made by the Italian brand of the bull. The collaboration is also the genesis of unique projects where the client sits with the manufacturer to create his or her very own watch.
